

REMARKS

Reconsideration and allowance of the above-identified Application in view of the above amendments and the following remarks are respectfully requested.

Claims 14-26 are pending in the application. Original claims 1-13 have been canceled and all currently pending claims 14-26 are newly presented herein.

The Examiner objected to the specification due to grammatical and idiomatic errors due to the translation and requested a substitute specification. Therefore, Applicants have prepared and submitted a substitute specification along with this Amendment correcting all grammatical and clerical errors discovered. Along with the substitute specification is a copy of the marked-up original specification indicating the changes made in the substitute specification. Applicants have corrected all grammatical and clerical errors discovered and request that the Examiner bring any additional such minor errors to the attention of the Applicants' representative so that they can be corrected by an Examiner's Amendment. No new matter has been added.

The Examiner rejected claims 1-13 under 35 U.S.C. § 112, second paragraph, as being indefinite. The Examiner indicated that he found the original claims so unclear that he could not perform a search on the invention. Applicants have canceled original claims 1-13 and replace them with new claims 14-26. All new claims 14-26 are fully supported by the original disclosure.
